OLC RECORD COPY

OLC: 78-3334
9 November 1978

NOTE FOR: [REDACTED]
Deputy Legislative Counsel

FROM: [REDACTED]
Chief, Coordination and Review Staff

Reference your note of 1 November 1978, following are responses to your queries on the items of interest listed by you:

Routine Dissemination of Publications to Congress

At Tab A is a listing of those Agency publications sent routinely to the Hill by NFAC's Congressional Support Staff and the Publications and Presentations Group. At Tab B is a copy of the "Report of Weekly Support to Congress" as submitted by CSS covering material other than routine.

Prepared Texts of DCI Speeches

Not all of the DCI's speeches are sent regularly to both HPSCI and the SSCI. [REDACTED] O/DCI, and sometimes with OPA involvement, decides which of the DCI's speeches are to be typed in final form, because the DCI does not always speak from a prepared text.

"Notes From the Director"

You will recall that sometime ago it was agreed that Liaison Staff would arrange sending the "Notes" to the Hill; however, they were not sent. Prompted by [REDACTED] inquiry, Liaison will send October's issues and hopefully will follow-up.

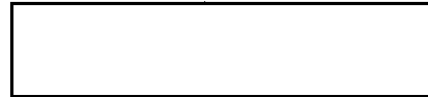

Regulations and Updates Thereon

A complete set of the Regulations was sent to SSCI, and [REDACTED] arranges to have updates forwarded. [REDACTED] is arranging with [REDACTED] to have the same sent to HPSCI.

Focal Point Officer

NOTE FOR: Liaison Staff
C&R Staff

25X1 THROUGH:

I have learned that the copies of the "Notes from the Director" are not being sent routinely to our oversight committees. I would think that we should send them because they are unclassified and they may be misinterpreted as they go from mouth to media, and probably more importantly, it's a good way to fulfill our obligation of keeping the committees currently and fully informed. If you have contrary thoughts, please let me know.

25X1 C&R: Can you give me a listing of those publications we routinely send to our oversight committees, e.g. update on regulations, prepared text of Director's speeches, etc., and finally, am I correct in assuming that  is our focal point officer for getting this done?
